FOR IMMEDIATE RELEASE

SōtirIS Information Strategies Announces Strategic Partnership with Atakama to Launch Advanced Browser Security Platform

[Camp Hill, PA] – [October 14, 2024] – SōtirIS, a leading provider of innovative IT solutions, is proud to announce a strategic partnership with Atakama, a pioneer in data security technology. This collaboration brings forth a cutting-edge Browser Security Platform designed to enhance enterprise cybersecurity.

Key Features of the Browser Security Platform:

Insights and Monitoring: Collect, measure, analyze, and report on browser and web application usage data. Uncover trends and identify anomalies for diagnostics and remediation.

Browser Security Controls: Timely management and enforcement of browser and extension updates, along with maintaining secure browser sessions ensures users access websites and SaaS applications effortlessly without compromising security.

Anti-Phishing, Anti-Malware, and DNS Filtering: Web traffic filtering to prevent phishing, malware, and other threats. Category-based content filtering to ensure compliance with policies for appropriate usage of corporate resources.

Credentials Analysis: Monitor and report on user password misuse, weaknesses, and vulnerabilities to improve credential cyber-hygiene.

Data Leakage Control: Monitor and restrict the web-based transfer of personally identifiable information through data masking and webpage watermarking to safeguard against the sharing of sensitive or proprietary information.

Quote from SōtirIS Executive:

"We are thrilled to partner with Atakama to deliver a browser security solution that addresses the growing cybersecurity challenges faced by enterprises today," said Mark Wilson, President at SōtirIS. "This platform combines our expertise with Atakama's innovative technology to provide a secure and user-friendly solution for our clients."

Quote from Atakama Executive:

"Atakama is excited to partner with Sotiris to provide their customers with a secure solution for the most commonly used application in every work place - the browser," said Alex Brandt, Head of Partner Success and Communities at Atakama. "Together we can improve their customers' security posture by implementing cutting-edge solutions like Atakama's Managed Browser Security Platform."
